PROFESSIONAL SUMMARY

Full-stack builder (engineering and solutions). I ship TypeScript/React/Next.js and PostgreSQL in production, plus API integrations, workflow automation, and the infra that keeps teams running day to day. I've scaled large communities, run container fleets in production, and built custom ERP and automation stacks for clients. Linux, self-hosting, and open source on the side.

TECHNICAL SKILLS

Business Systems & Automation: Airtable, Make/Zapier, Pipedrive, ClickUp, Printavo, Workflow Automation, Stripe/Authorize.NET, Twilio, PandaDoc, Jotform, SendGrid, Shopify

Development: TypeScript, JavaScript, Python, React, Next.js, Node.js (Express, Hono), tRPC, SQL/PostgreSQL, REST APIs (OpenAPI, Zod), WebSockets, WordPress, Tailwind, Drizzle/Prisma, Supabase, Turborepo, Vitest, TanStack Query, Git, GitHub Actions

Platform & Infrastructure: Linux, Docker, Ansible, Terraform, Nginx, Cloudflare, Observability (Grafana, Prometheus, Loki, Sentry, Alloy, Mimir), Redis, NixOS, Bash, MkDocs, GCP, Vercel, MediaWiki

PROJECTS

Chat360: Real-time voice party chat - Agora WebRTC (AI denoising, VAD), Supabase auth + realtime presence, Xbox-inspired UI (Next.js 15, TypeScript, Tailwind, shadcn, Zustand) · github.com/kzndotsh/chat360

Tux: Open-source Discord bot - moderation cases, XP/leveling, snippets, plugin system (Python, discord.py, SQLAlchemy, PostgreSQL, Redis, ~690 tests, Sentry, Docker) · github.com/allthingslinux/tux

CoinSwiper: Full-stack Solana token voting - swipe bullish/bearish on live DexScreener pairs, persisted votes, aggregated leaderboards (Next.js 15, Prisma, TypeScript, shadcn) · github.com/kzndotsh/coinswiper

PROFESSIONAL EXPERIENCE

Co-Founder & Full-Stack Engineer · Doji

Feb 2026 - Present · Remote

- Built a terminal-style Polymarket prediction-market platform end to end in a TypeScript monorepo: Next.js 16 + React 19 frontend with live market data over multi-channel WebSockets, Hono + tRPC API, PostgreSQL (Drizzle)
- Integrated Polymarket trading APIs for live order placement, portfolio/positions, notifications, and real-time orderbooks
- Hardened upstream Polymarket integrations: retry/circuit-breaker/rate-limit layer, Vitest + property-based tests, Sentry, CI/CD to Vercel

Founder & Full-Stack Engineer · All Things Linux

Nov 2023 - May 2026 · Remote

- Scaled a 501(c)(3) Linux education nonprofit community to 20,000+ members, 10M+ messages, and 40 active volunteers; maintained 250K+ LOC monorepo
- Built OIDC identity hub and Discord/IRC/XMPP bridge (Better Auth, PostgreSQL/Drizzle, Next.js): one account provisions IRC, XMPP, email, and wiki (1,500+ tests)
- Ran 30+ self-hosted services on Hetzner/OVH via Docker Compose, Ansible/Terraform, and Cloudflare Workers, with production observability

Shopify Developer (*contract*) · BloxMania

Jul 2025 - Aug 2025 · Remote

- Replatformed Roblox/Fortnite digital-goods marketplace from a Next.js storefront to a custom Shopify 2.0 theme (Tailwind, modular Liquid sections); configured Google Analytics, Tag Manager, and Search Console
- Shipped marketplace UX with feature parity: per-game header and mobile selector, supported-games catalog, and video tutorial onboarding page
- Built Node.js theme pipeline with CSS/JS bundling, hot reload, and Theme Check; deployed to production via Shopify CLI

Solutions Engineer (contract) · PrintBliss

Dec 2023 - Aug 2024 · Remote

- Migrated a garment printer from Printavo to a custom Airtable ERP (20+ automation scripts); phased cutover with zero production downtime; documented production workflows
- Built typed Express/TypeScript REST API with OpenAPI and Zod validation; garment pricing formulas and quote/invoice dashboards
- Connected Make, Stripe, PandaDoc, Shopify, Twilio, OpenAI, Jotform, and Google Workspace to the Airtable ERP with event-driven automations; set up SendGrid transactional email

System Administrator · Blackbeard Media Group

Jan 2022 - Nov 2023 · Remote

- Operated petabyte-scale media platform on Hetzner bare metal: 100+ Docker containers, Ceph storage, Ansible, Portainer, Traefik, and Authelia
- Built MkDocs customer help site and internal staff handbook deployed via Cloudflare Pages
- Co-authored ~1,300-line Hetzner media-node provisioning runbook (Arch Linux installimage, LVM/XFS, node naming conventions, Plex/Emby standards)

Web Developer & Technical Consultant (contract) · Independent

Aug 2021 - May 2023 · Remote

- Designed Discord architecture for three small-business client communities (Varius Media): channel/role structure, whitelist onboarding, moderation and member verification
- Recovered compromised WordPress/PHP/MySQL site for Foster's Alaska Cabins; rebuilt on Cloudways and migrated DNS to Cloudflare with backup workflow
- Redesigned WordPress/Elementor Pro site for M.R. Snyder Company industrial automation integrator; performance tuning (Breeze cache/CDN) and shipped baseline SEO

Business Solutions Manager · F4mily Matters

Oct 2020 - Dec 2021 · Charlotte, NC

- Ran sales ops and business systems for custom apparel brand: Google Workspace and Cloudflare DNS; Make/Zapier automations linking Printavo, Jotform, Airtable, and Trello
- Wrote inbound order-flow SOPs and 7 automated customer email/SMS templates (Twilio) for order stages; led rebrand from Digital Apparel Printing to F4mily Matters
- Documented team roles and handoffs across sales, production, and design; rolled out ClickUp and Pipedrive workflows

Earlier & Other Work · Independent

Oct 2013 - Apr 2022 · Charlotte, NC / Remote

- Web3 launch consulting (2022): Led Discord launch ops for Wagmi World, Pixel Pussies, and The Football Club (whitelist growth, anti-raid security, mint-week ops); \$200K+ launch revenue, 20,000+ Discord members
- Music Career Map (2020): Built WordPress/Elementor marketing and product landing pages; course mockups, contributor onboarding, and content styleguides for launch
- Artists at Scale (2018-2020): Founded WordPress membership platform (Stripe, Zapier), 300+ artists; 60-day private beta with Intercom/Userpilot onboarding
- Events & field ops (2013-2017): 75+ events across 20+ venues; 40+ independent sales rep program at F4mily Matters (CRM, field onboarding)
- Marketing consulting (2017-2021): Creator and small-business martech/brand work; lead-gen app with 5,000+ podcast leads (*Ace the Game*, 2019)

EDUCATION & CERTIFICATIONS

Bloom Institute of Technology: Full-Stack Web Development (2023-2024)

Certifications: HubSpot (Inbound, Email, Growth-Driven Design) · SEMrush (SEO Fundamentals, Technical SEO) · Google Fundamentals of Digital Marketing
